

The Marcia Brenner Associates customization team is here to serve. MBA can help you achieve the maximum potential of PowerSchool by adding customized features to address the unique needs of your school district.

- Custom Report Cards including Standard and Skills Based
- Ready to use Plugins for Behavior, Café, Fees and Meds
- Form Builder to easily create the forms you need
- Personal, high quality training and support services

Here are some examples of how MBA is enhancing the data management within PowerSchool:

Behavior Plugin:

- Student Behavior Dashboard.
- Enhanced interface.
- Maintain data related to roles, motivation, actions and more.
- Teacher access via PowerTeacher.
- Alert option setup per user.

Immunizations | Screenings | Office Visits | Grade Level Entry Certifications | Medication Administration

Medication Administration [New Authorization]

Medication	Type	Notes	Quantity	Administration Time	Start Date	End Date	Daily Med
Edit Administer History	Ibuprofen	Over-the-Counter	As needed for headaches etc...	400 mg		05/27/2013	05/23/2014
Edit Administer History	Clarithromycin	Prescription	Upper respiratory infection	1 tablet	11:00 am	10/01/2013	12/31/2013 ✓

Meds Plugin:

- Integrated with the student health screens.
- Maintain data related to medication authorization and distribution.
- Record the history of medications that have been administered.
- Mass record medications administered each day.
- Alert option setup per user.

Fees Plugin:

- Simplifies the task of maintaining student fees in PowerSchool.
- Intuitive navigation and faster record entry and modification, including a delete button.
- Easily waive and discount fees.
- No more SOY balance – fees transfer year to year and school to school.
- Reports, Reports, Reports

Fee Transactions

Café Plugin:

- Easily generate line item transactions for meals and a la carte menu items.
- Create menus and define which meals and a la carte options will be present on each menu.
- Accurately report student lunch status eligibility counts by date.
- Reports, Reports, Reports

Custom Alerts Plugin:

- Create district-wide or school defined custom Alerts for students.
- Upload your own icons.
- Connect alert to an existing field.

Custom Alert Types

Alert	School	Student field	Teacher visibility
504 Plan in Place	District	504_Information	Yes
BikeToSchool	Apple Grove High School	bike_type	No
Football	Apple Grove High School	Activities.football	Yes
French Club	Apple Grove High School	Activities.frenchclub	Yes
Student Government	Apple Grove High School		Yes
Student is Truant	District		Yes

Note: Custom Alert types can only be edited at the level (school or District Office) where they were created. School-level alert icons only display at the school where they were created, and they do not travel with a student upon transfer to another school. District-level alert icons display at all schools and do follow a student after a transfer within the district.
